

A car wants to travel to the moon.

He starts his trip one night.

He turns on his light and starts up his engine.

He wants to go very far, as far as the stars in the sky.

Up he goes.

There he is, near the moon and the stars.

A car wants to travel to the moon.

He starts his trip one night.

He turns on his light and starts up his engine.

I want to go very far.

He wants to go very far,

as far as the stars in the sky.

Up he goes.

There he is, near the moon and the stars.
